

Accounting and Management Consulting Services

Accounting Services

We assist clients in many different ways. One service many small businesses find valuable is our accounting and management consulting services.

We offer a wide range of back office services to allow business owners to focus on running their business while we handle their day to day accounting. The costs associated with hiring a full time bookkeeper or controller can be substantial, including benefits, payroll taxes and unemployment insurance. As part of your financial team, while preparing accurate, timely and reliable financial information, timely advice is offered, rather than at year end or after the fact.

Our accounting services can be specifically structured to help **you Move Your Company Forward**. These services include the following, specified to your needs:

- Processing and planning payroll for employees and owners
- Cash disbursements and receipts reporting
- Bank reconciliations
- Year-end W-2/1099 and quarterly 941 reporting
- Maintaining an entities' entire set of books and general ledgers
- Combined with general financial oversight

Our knowledge and ongoing education in this ever-changing business environment will assist you to **Move Your Company Forward**.

Our management consulting services are specifically structured to help you **Move Your Company Forward**. From our training and experiences as accountants to our entrepreneurial spirit and skill set, we are able to work through challenges and opportunities with our clients while providing sound advice.
