

About Us

The manufacturing industry is marked by changing regulations, economic conditions, supply costs, and competition. While keeping up with what's new can be a major undertaking, keeping on track to hit profit goals can present yet another set of challenges.

Helping our manufacturing clients stay ahead of the curve is what we do best.

Whether you're looking to control costs or expand geographically, at Lang Allan & Company CPAs PC, we're ready to be part of the solution.

- Does your CPA suggest and help you implement ideas?
- Does your CPA have the resources and knowledge to enhance your banking relationships?
- Is your CPA proactive in their communication with you?

If not, our dedicated team of professionals provides timely and thoughtful advice to help you improve more than just your bottom line. If you're looking to grow your business strategically and profitably, we are ready to be part of the solution:

- Cost accounting (for reporting and/or pricing purposes)
- Cost segregation for your facilities
- Developing new and/or improved product lines
- Expanding geographically
- Increasing profit and margins
- Boosting operating efficiencies
- Controlling costs and outside risks
- Succession planning
- State and local tax consulting
- IT selection projects for administration and plan operations
- Strategies for minimizing taxes, including estate and financial planning
- Managing manufacturing systems applications software
- Employment tax credits related to plant, distribution and administrative employees

Together, we help you *Move Your Company Forward.*
